Our Story

A Journey of Innovation and Collaboration

Siva's Entrepreneurial Journey

Siva, a seasoned entrepreneur, founded PowerUpCloud in 2015 and successfully sold it to Larsen & Toubro Infotech (LTI) in 2019. Upon completion of his engagement with LTI in 2022, he identified the transformative potential of AI in the field of data analysis.

The Birth of Lyzr

Inspired by ChatGPT, Siva envisioned a product where users could upload CSV or Excel files and ask questions, receiving insights and recommendations in return. As he discussed this idea with potential customers, Siva realized the paramount importance of data privacy. Additionally, he found the existing platform, LangChain, inadequate for his vision. This led to the birth of Lyzr in April 2023, derived from the word “analyzer.”

Lyzr was initially focused on creating an AI product for data analysis but soon pivoted to developing an agent framework by October 2023.

An agent framework, as Siva saw it, was a platform to build AI agents capable of autonomously performing tasks based on given inputs. The rise of chat-based agents during late 2023 solidified this direction.

Lyzr began with chat agents and knowledge search agents, eventually expanding into workflow automation. Key innovations include the AI SDR (Sales Development Representative) for sales, Skott for marketing automation, and Diane, an HR-specific agent, each designed to optimize and streamline essential business functions.

Building the Team

Siva reunited with Anirudh, a long-time friend and colleague, who brought technical expertise and shared vision. Jimmy, another friend, joined as CTO with his strong technical background.

Together, the team of 50+ operates across the US and India, creating innovative AI solutions. Lyzr's mission is to redefine what's possible through the power of AI agents. United by a common goal and diverse expertise, team Lyzr continues to push the boundaries of AI, creating innovative solutions that redefine what's possible.

Technological Advancements

Lyzr's development has been closely tied to advancements in AI technology. The emergence of large language models like ChatGPT has played a pivotal role in enabling Lyzr to create powerful and versatile AI agents. By leveraging these models, Lyzr can provide natural language understanding, generate human-like text, and complete complex tasks.

Product Evolution

Lyzr's product has evolved from its initial focus on data analysis to a broader platform capable of automating various tasks. The company's agent framework allows for the creation of customized AI agents that can be tailored to specific needs and industries. This flexibility has enabled Lyzr to expand its offerings and target a wider range of customers.

Impact on Industries

Lyzr's technology has the potential to transform a wide range of industries. In the sales domain, Lyzr's AI SDR can automate lead generation and qualification tasks, freeing up sales teams to focus on high-value activities. In customer service, Lyzr's AI agents can provide 24/7 support and handle routine inquiries, improving customer satisfaction. Additionally, Lyzr's technology can be applied to areas such as marketing, finance, and operations to streamline processes and drive efficiency.

Future Outlook

As AI technology continues to advance, Lyzr is well-positioned to capitalize on emerging opportunities. The company's focus on innovation and adaptability will be crucial in ensuring its long-term success. Lyzr's future may include exploring new applications for its technology, expanding into international markets, and forming strategic partnerships with other companies.

Lyzr's journey from a data analysis tool to a versatile AI platform is a testament to the power of innovation and the potential of AI to revolutionize industries. By leveraging cutting-edge technology and building a strong team, Lyzr is poised to become a leader in the AI space.

Our Vision

Lyzr is dedicated to creating a future where enterprises flourish with Organizational General Intelligence (OGI), empowering them to serve their customers intelligently, liberate their workforce from mundane tasks, and unlock infinite possibilities for meaningful work and lives.

Our Mission

Lyzr equips organizations with a central brain—an intelligent, adaptive system that fosters awareness, agility, adaptability, and autonomy. Annual CTC	Per Half-Shift (4 hours)	Per Full Shift (4 hours or more)
Up to ₹10,00,000	₹1,000	₹2,000
₹10,00,001 – ₹20,00,000	₹1,500	₹3,000
Above ₹20,00,000	₹2,000	₹4,000

Note: The same slab structure applies to both night shifts and weekend work. Half-shift and full-shift definitions apply equally to weekend days based on actual hours worked.

Shift Buckets

To keep tracking and payout simple in Phase 1, only two buckets are recognized:

Bucket	Definition (Night Shift)	Definition (Weekend Work)	Payout
Half-shift	Worked at least 4 hours, with the work commencing at or after 11:00 pm IST	Worked at least 4 hours on a Saturday or Sunday	Half allowance per slab
Full-shift	Worked 8 hours or more, with the work commencing at or after 11:00 pm IST	Worked 8 hours or more on a Saturday or Sunday	Full allowance per slab

Treatment as Allowance, Not Salary

The Night Shift Allowance and Weekend Work Allowance are non-salary cash payments processed through payroll under separate allowance heads. They are:

- Paid in addition to the employee's fixed monthly salary;
- Not part of cost-to-company (CTC) and not factored into gratuity, leave encashment, or bonus calculations;
- Subject to applicable income tax in the hands of the employee. (See Section 4.6 - Tax Treatment.)

Tax Treatment

The allowance will be paid through the monthly payroll under the head "Night Shift Allowance" / "Weekend Work Allowance". The exact tax treatment (taxable / partially exempt) will be confirmed by the Finance team prior to rollout, in consultation with payroll counsel. Until that confirmation is recorded:

- Employees should treat the full allowance as taxable income.
- TDS will be deducted as applicable based on the employee's tax declarations.
- People Ops will issue an updated note once the final position is confirmed.

Frequency Guidelines (Phase 1)

To prevent overuse and protect employee well-being, the following soft caps apply:

- No more than 8 night shifts per employee per calendar month, save in exceptional, documented circumstances approved by the COO;
- No more than 6 weekend days per employee per calendar quarter, save in exceptional circumstances;
- People Ops will flag any employee approaching these limits for a well-being check-in.

20. Performance Review

At Lyzr, we believe in recognizing and rewarding your contributions while supporting your growth. Our Performance Review process is designed to assess your productivity, attitude, and overall alignment with the company's goals, based on the pre-set objectives and Key Result Areas (KRAs).

We conduct Annual Appraisals every October, which are available to employees who have completed at least one year with the Company, subject to management's discretion. These appraisals assess your performance and provide valuable insights, which are also used as inputs for the Annual Compensation Review, held in November each year.

Please note that a Performance Review does not automatically guarantee a compensation increase or revision. Reviews conducted after the completion of probation will focus on performance alignment and will not include compensation adjustments.

Compensation reviews and increments are exclusively conducted in November for all confirmed employees.

In addition, we offer continuous feedback throughout the year via Quarterly Feedback sessions with your Reporting Manager, to ensure your performance aligns with your goals. These quarterly discussions also contribute to your Annual Performance Appraisal.

You can access your KRAs and appraisal forms through the HRMS, ensuring you're always up-to-date on your progress and expectations.

Performance Improvement Plan (PIP)

At Lyzr, we are committed to supporting employees in their growth and success. If an employee faces challenges in meeting their duties, despite receiving the necessary support, training, and feedback, or if they engage in misconduct such as insubordination, unauthorized leave, dishonesty, or neglect of duties, a Performance Improvement Plan (PIP) will be implemented to help them improve.

The Reporting Manager will outline the areas of improvement and communicate them to the HR team, who will then review the feedback and issue the PIP to the employee. The duration of the PIP will typically range from 15 days to 3 months, depending on the manager's discretion.

During the PIP, the employee is expected to actively engage with the recommendations and work towards improving performance and behavior. An employee can be placed on a PIP twice. If there is no improvement or if the issues reoccur, further disciplinary action, including termination of employment, may be considered.

For behavioral issues, the PIP should be initiated within 30 days of the incident, with a duration not exceeding 3 months.

Please note, employees on a PIP are not eligible for performance incentives, bonuses, rewards, recognition, or promotions during the PIP period.

Once the employee shows significant improvement, the Reporting Manager will assess progress, and if warranted, close the PIP. The HR team must be informed when the PIP is officially closed.

21. Separation

Voluntary Separation

To initiate the resignation process, an employee must submit a resignation notice to their Reporting Manager via the HRMS, adhering to the 30 day notice period requirement.

The date of resignation on HRMS will be considered the 1st day of the notice period. However, if the resignation is sent beyond the business hours on a working day or on a weekly off or on a holiday, notice period would start from the next working day.

22. Employee Referral

All full-time employees of Lyzr are eligible to participate in the referral program, except for the Founding team, HR or those involved in the hiring process for the referred position.

Referral Eligibility & Relationship Disclosure

To preserve the integrity of the Employee Referral Program while keeping our hiring bar as the primary quality filter, the following framework applies to all referrals submitted under Section 22.

Ineligible Referrals

The following referrals do not qualify for the referral bonus, even if the candidate is hired:

- **Social media-only connections:** Candidates known to the referrer solely through social or professional networking platforms (LinkedIn, Facebook, Instagram, X, etc.) without prior professional collaboration, working relationship, or substantive personal acquaintance.

A "vouch" is the core of a referral. Where no such basis exists, the referral does not qualify, regardless of hiring outcome.

Referrals Requiring Disclosure

The following referrals are eligible for the referral bonus, but are subject to mandatory disclosure and review before payout:

- **Family and personal relationships:** Including but not limited to spouses, domestic partners, parents, siblings, children, in-laws, and extended family members.

The referring employee must declare the relationship at the time of submitting the Referral Form. The referred candidate cannot fall within the referrer's direct or indirect reporting line (upward or downward) at the time of hire or at any point during the referrer's continued employment. The People team will review and confirm eligibility before bonus payout.

If a reporting-line conflict arises post-hire (e.g., due to a reorganisation), the bonus already paid is not clawed back, but reporting structures will be adjusted to remove the conflict.

Eligible Referrals

- **Professional network and acquaintances,** including connections made through industry events, community groups, alumni networks, or other non-family channels, qualify for the standard referral bonus, provided the candidate clears Lyzr's hiring process and completes the probation period.

Non-Disclosure or Misrepresentation

Failure to disclose a family or personal relationship at the time of referral submission will result in forfeiture of the referral bonus and may be treated as a breach of the Code of Conduct under Section 1.

Final Authority

The People team holds final authority on referral bonus eligibility under this clause. Any disputes may be escalated to the CBO.

Incentive Structure

1. **Reward:** If the referred employee successfully completes the probation period, the referring employee will receive a reward equivalent to one month of their base salary.

2. **Conditions:**

- The referring employee must still be employed with Lyzr AI India Private Limited at the time the referred employee completes their probation period to claim the reward.
- If the referring employee leaves the company before the completion of the referred employee's probation period, they forfeit the reward.
- This policy does not apply to founding team members, functional leaders and the HR department. When leaders source candidates directly from their own professional networks to build their own teams, such referrals will not be eligible for a referral bonus, as this is considered part of their leadership responsibility.

However, cross-functional referrals by functional leaders, where employees refer candidates for roles outside their own teams will remain eligible for referral bonus.

- If multiple employees, recruiters, or external sources refer to the same candidate, the individual who uploads the profile first in the system will be given credit.
- Cooling period: If a candidate is not selected within a recruitment cycle, the same candidate can be referred to the company again 1 year later.

Legal and Ethical Considerations

1. **Equal Opportunity:** The referral program will ensure that all referred candidates are evaluated based on merit and fit for the role, promoting diversity and inclusion within the company.
2. **Transparency:** The referral process and criteria for rewards will be transparent to avoid any perceptions of favouritism or unfair advantage.

How to Participate

1. **Submit a Referral:** Fill out the Referral Form on the HRMS
2. **Follow-up:** HR will keep you updated on the status of your referral.
3. **Receive Your Reward:** If your referral is hired and completes the probation period while you are still with the company, you will receive a reward equivalent to one month of your base salary.
